OmniCraft ERP: 7 Hidden Profit Leaks in Spreadsheets

Workshop Self-Audit Checklist

1. Formula Range Drift: Verify that SUM and VLOOKUP ranges cover all rows.
2. Static Material Pricing: Check if leather prices match recent batch invoices.
3. Phantom Scrap Loss: Check if cutting yield % is accounted for in patterns.
4. Zero-Cost Chemistry: Ensure thread, cement, and edge paint are expensed.
5. Bench Stockouts: Verify hardware allocation against pipeline orders.
6. Diluted Hourly Rate: Compare real bench hours against estimated labor.
7. Single Account Mixing: Separate client deposits from personal cash flow.
